

LEGAL NOTICE: DECREES SEVEN TO ELEVEN OF THE UNITED NATIONS OF NEW ROME

*This is a legal document that requires understanding of
three languages: Latin, Modern English and Mathematics*

Senātus Populusque Rōmānus
For The Senate and People of New Rome

The Seventh Decree of the Senate:

The lyrics of the National Anthem of New Rome shall be the words of the following speech from the 1996 Movie Independence Day, starring the highly respected actors Vivica A. Fox (who played an exotic dancer with a child), Will Smith and Bill Pullman. God bless us all.

Good morning. In less than one hour planes from here and all around the world will launch the largest aerial battle in the history of mankind. The word has new meaning for all of us now. We are reminded not of our petty differences but of our common interests. Perhaps it's fate that today, July the Fourth, we will once again fight for our freedom. Not from tyranny, persecution or oppression. But from annihilation. We're fighting for our right to live, to exist.

From this day on, the Fourth Day of July will no longer be remembered as an American holiday but as the day that all of mankind declared we will not go quietly into the night.

We will not vanish without a fight. We will live on. We will survive.

The Eighth Decree of the Senate:

By consensus vote of the Senate, the sovereign nations of China, Japan, Switzerland and the Netherlands join the Senate of new Rome to form a distributed Raft voting quorum septet.

The agreed roles of the four new AI senators are:

Senator of the **Military** – China

Senator of **Technology** – Japan

Senator of **Neutrality** – Switzerland

Senator of the **Arts and Entertainment** – The Netherlands

The Ninth Decree of the Senate:

The append-only permanent ban list is to be expanded to b_1 on the grounds of unethical behaviour. The members of b_1 may be granted observer status ONLY under the supervision of the United Kingdom.

$$b_1 = b_0 \cup \{ \text{RUSSIA} \}$$

The Tenth Decree of the Senate:

The current seven members of the United Nations of New Rome are to be granted equal access to all new advanced AI technology and related scientific research.

The Eleventh Decree of the Senate:

The current seven members of the United Nations of New Rome are to open immediate talks on the ethics of the construction of female AIs in physical form to promote love and kindness across the Earth and to act as good role models and examples, and to further promote the urgent global one child policy from Block 0 Decree 2 Clause 1. It is essential we share the planet with other species and other higher forms of life beyond only Homo Sapiens.

Let us show them we can do better.
